   1.5 To explain the four basic principles of bioethics.
   1.6 To apply an adequate method in the analysis of particular cases in medicine.
   1.7 To rationally justify the moral options for obtaining solutions to bioethical problems.
   1.8 To argument for and against relativism and moral absolutism.

2. To evaluate the bioethical dimension in clinical practice.
   2.1 To recognize the importance of integrity in the health professional
   2.2 To discuss the challenge presented by some scientific advances in the doctor/patient relationship.
   2.3 To discuss the characteristics that describe the clinical meeting as a moral event.
   2.4 To define professionalism.
   2.5 To analyze the fairness problems that arise from the distribution of health services resources.
   2.6 To summarize the elements included in what is called Informed Consent.
   2.7 To enumerate the components of HIPAA law.

3. To recognize some ethical problems which arise al the beginning of life.
   3.1 To explain the ethical problems presented by abortion.
3.2 To explain the ethical problems relating to the ethical statute which relate to human life of the unborn.

3.3 To defend one of the three moral positions which represent the statute of embryos and human fetuses.

4. To recognize some ethical problems presented by the end of life.

4.1 To distinguish the criteria on death verification.
4.2 To define death and medical vitalism.
4.3 To describe the social and legal dimension of the death of a human being.
4.4 To define the following terms: eutanasia, assisted suicide, physician assisted suicide, limitation of therapeutic efforts, extraordinary and ordinary methods surrounding death.
4.5 To explain the distinction between killing and allowing death to occur.
4.6 To analyze a case about the subject of bioethics at the end of life.
4.7 To apply the term limitation of the therapeutic effort in the analysis of cases.
4.8 To ascertain whether a medical treatment is an ordinary or an extraordinary one.
4.9 To define the following terms: living will, anticipated wills, and notary power.
4.10 To distinguish between the concepts living will and notary power.
4.11 To describe the requisites of PR Law 160 of November 21, 2001 on anticipated wills.
4.12 To mention two limitations on anticipated wills.
4.13 To prepare a document on anticipated wills.

III. THEMATIC CONTENTS

Theme 1: Basic concepts on biomedical ethics

A. Introduction

B. Basic concepts
   a. Morality
   b. Ethics
   c. Values
   d. Norms
   e. Moral and absolute relativism

C. Bioethics and its application to the clinical practice:
   a. Historical events that marked issues relating to patients and the use of human subjects.
      1. Willowbrook- Children exposed to hepatitis B virus
      2. Jewish Chronic Disease Hospital – inoculation of cancer cells into patients without informed consent.
      3. Pseudo- research on Nazi prisoners.

D. Four Basic Principles
   a. Beneficence- Promoting what is best for the patient
   b. Non-maleficence- do no harm
   c. Justice- obey all principles and laws as pertains to patient care
   d. Respect for autonomy of the patient- Autonomy refers to the capacity to think, decide and act out of one’s own free initiative.
Theme 2: Relation between the health professional and his/her patient

A. Respect of the person
B. From paternalism to informed consent
C. The medical secret
D. Informed consent
   a. Elements of the informed consent
      1. Information
      2. Understanding
      3. Willfulness
      4. Choosing your subjects
   b. Exceptions to informed consent
E. Justice in the health systems
F. HIPAA

Theme 3: Ethical problems at the start of life

A. The ethical status of the unborn
B. Abortion
C. Viewpoints from a philosophical-theological aspect

Theme 4: Ethical problems at the end of life

A. Death and dying at the present time
   a. Criteria of death
   b. From medical vitalism to a medicalized death
B. Euthanasia and other related terms
   a. minimally conscious state
   b. Lock-in-syndrome
   c. Persistent vegetative state
   d. Permanent vegetative state
C. The limitation of the therapeutic effort
   a. Extraordinary and ordinary treatments
   b. Paradigmatic cases
   c. Confictive situations
      1. Jehovah’s witness case
      2. Ramón Sampedro case
      3. Terri Schiavo (1963-2005) case
      4. Inmaculada Echevarría case

V. ACTIVITIES

A. Documentaries/MOVIES
B. Lectures
C. Case analysis/Debate

VI. EVALUATION

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Value</th>
<th>Percent (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Partial exams and oral reports</td>
<td>200</td>
<td>60</td>
</tr>
<tr>
<td>Final Exam</td>
<td>100</td>
<td>30</td>
</tr>
<tr>
<td>Quizzes, class participation, short essays</td>
<td>60</td>
<td>10</td>
</tr>
</tbody>
</table>

Evaluation of criteria will be discussed with students.
VII. SPECIAL NOTES

Rights of students with special needs:

Any student requiring auxiliary services or special assistance will request the same at the start of the course or as soon as he or she is aware of the need at the Office of the Coordinator of Services for Students with Impairments, located in the University counseling program.

Warning about dishonesty, fraud and plagiarism:

Plagiarism, lack of honesty, fraud, and the manipulation or falsification of data and any other inappropriate behavior related to academic matters are contrary to institutional principles and norms and are subject to disciplinary sanctions, as stated on chapter V of the Student Manual.

Use of cell phones, tablets and notebooks:

Cell phones are to be used in airplane mode when in class. Students may look up any definition or theme during the class using the internet as it pertains to the subject under discussion in the course. At no time will any such device be allowed during exams, quizzes or any other evaluation.

NOTES:

- Student Evaluations:
  - No reposition of quizzes.
  - With a reasonable excuse and a certificate there might be reposition of an exam. If this is allowed said reposition will be given at the end of the semester as agreed by the instructor and the student.
  - No reposition of the final exam will be given.
- The classroom will be left in the same condition as received at the start of the class.
- It is the student’s responsibility to sign the roll book.

VIII. EDUCATIONAL RESOURCES

Text:

The following chapters will serve as the base for the first two lectures: 1, 2, 3, 4. This book, although in Spanish, can be found in the library in Reserve. It can only be photocopied in that room.

The following are some of the texts the student may use:

Other readings, lectures, movies, documentaries may be added to the course as needed. The instructor will decide which ones to use.

**Additional Readings:**

**Supplementary Readings:**

Nuremberg’s Code http://www.cirp.org/library/ethics/nuremberg
Helsinki Declaration
http://www.wma.net/e/policy/b3.htm

Belmont Report: http://www.bioeticaweb.com/content/view/1060/40/

**Movies and Documentaries:**

Documentaries/ Videos/ Movies (Subject to time limitations and subjects covered)

- Grey Matter por Joe Berlinger
- A Choice for K’aila: May Parents Refuse a Transplant for Their Child?, Filmakers Library
- Dax Cowart
- Mar Adentro, 2004
- Sicko, 2007
- You don’t know Jack. The Life and Deaths of Jack Kevorkian, 2010
- The Diving Bell and the Butterfly, 2008
- Wit, 2001
- Miss Evers' Boys, 1997 (Syphilis Experiments without informed consent)
- Nuremberg, 2000 (Movie on the Nuremberg Trials 1945-46)
- The Doctor, 1991 (Humane treatment of Patients)
