- Efficiency and effectiveness in organizational efforts
- Democratic coexistence
GOALS

1. Develop programs and curricula, in Spanish and in English, in the fields of science, applied science, humanities and professional studies that meet disciplinary standards of excellence and the demands of a global society.

2. Maintain an up to date offering with a multidisciplinary and international focus designed to form leaders and entrepreneurs, responsible and moral citizens with critical reasoning skills and able to celebrate the diversity of human creativity.

3. Generate research, innovation, and creative endeavors throughout the academic community in a way that enhances campus programs and services, develops and disseminates knowledge, and contributes to the solution of problems relevant to society.

4. Provide services and activities pertinent to a diverse student population in order to support their academic, intellectual, social and moral development as well as cultivate their awareness of social, cultural, economic, environmental, and political problems.

5. Retain a faculty that excels in teaching, research, and educative innovation; a faculty committed to outcomes assessment processes and to fulfilling the norms applicable to their programs and curricula, dedicated to their professional development and to serving the community.

6. Cultivate a competent, agile management team that promotes excellence and continuous improvement that supports the development of programs, services, and activities generated by the community.

7. Foster the continuous development of human resources and their wellbeing within a positive working environment oriented to increasing the effectiveness and efficiency of the campus’s programs and services.

8. Promote democratic values, the importance of service, and the reaffirmation of Christian roots under the ecumenical focus of the University throughout the campus community.

9. Develop an organizational culture of cost-effectiveness and efficiency by strengthening the planning and evaluation processes that lead to strategic deployment of the human, physical, and financial resources needed to achieve the goals and objectives of the programs, activities, and services offered by the campus.

10. Improve the technological infrastructure and optimize its utilization in academic and administrative processes to enhance productivity and to develop more effective communication throughout the community.

11. Increase collaboration between the University, the community, government, and industry to fortify and enrich academic, cultural, and civic activity.
